OUR MISSION

Our mission is to enable a common man to work on his dream at his comfort at his time and earn the money which can fulfil his dreams. We are constantly working and thriving for excellence.

WHAT IS CROWD FUNDING

Crowd funding is the use of small amounts of capital from a large number of individuals to finance a new business venture. Crowd funding makes use of the easy accessibility of vast networks of people through social media and crowd funding websites to bring investors and entrepreneurs together, with the potential to increase entrepreneurship by expanding the pool of investors beyond the traditional circle of owners, relatives, and venture capitalist.

HOW DOES IT WORK

- ✓ Crowdfunding platforms enable interaction between fundraisers and the crowd. Financial pledges can be made and collected through the crowdfunding platform.
- ✓ Fundraisers are usually charged a fee by crowdfunding platforms if the fundraising campaign has been successful. In return, crowdfunding platforms are expected to provide a secure and easy to use service.
- ✓ Many platforms operate an all-or-nothing funding model. This means that if you reach your target you get the money and if you don't, everybody gets their money back – no hard feelings and no financial loss.

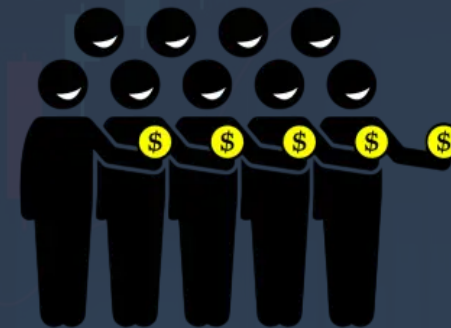

There are a number of crowdfunding types which are explained below. This guide provides unbiased advice to help you understand the three most common types of crowdfunding used by profit-making SMEs and startup

CROWD FUNDING

- ✓ PEER-TO-PEER LENDING
- ✓ EQUITY CROWDFUNDING
- ✓ REWARDS-BASED CROWDFUNDING
- ✓ DONATION-BASED CROWDFUNDING
- ✓ PROFIT-SHARING / REVENUE-SHARING
- ✓ DEBT-SECURITIES CROWDFUNDING
- ✓ HYBRID MODELS

HISTORY OF STOCK MARKET

The term stock market refers to several exchanges in which shares of publicly held companies are bought and sold.

The first organised stock exchange in India was started in 1875 at Bombay and it is stated to be the oldest in Asia. In 1894 the Ahmedabad Stock Exchange was started to facilitate dealings in the shares of textile mills there. The Calcutta stock exchange was started in 1908 to provide a market for shares of plantations and jute mills.

Then the madras stock exchange was started in 1920. At present there are 24 stock exchanges in the country, 21 of them being regional ones with allotted areas. Two others set up in the reform era, viz., the National Stock Exchange (NSE) and Over the Counter Exchange of India (OICEI), have mandate to have nation-wise trading

WHY CHOOSE STOCK MARKET →

We chose Stock Market because it the big market in the India.It empowers everyone from retail investors to common peoples, traders also. Everyone potentially see here profits from goods & company share turnovers
